

**Do you daydream about Space Operas? Do you yearn to boldly go where no sci-fi writer has gone before?
Do you fantasize about penning the next space epic?**

Then Space Pitch is for you!

Space Pitch is a co-operative narrative-building card game. Using open-ended event cards, you and your friends will together build a unique narrative based on one of several settings, with a diverse and adaptable cast of characters. Gritty character drama or screwball comedy? Sweeping epic or suspense and intrigue? The choice is yours! The only criteria for winning: your story has to make sense. So build your story together, pick a storyteller, pitch it to your friends and family, and if you like it, write it down – who knows? Your Space Pitch could be the next big franchise...
